SM TITAN

The TITAN of TMT Bars

Virgin and Superior Quality Raw Material

Integrated Plant

Best Quality TMT Rebars

Maximum Strength Stronger Construction

Super Grip Made With Latest German Technology

Ideal for every construction

Flyover

DAMS

Raw Housing

Apartments

Infrastructure

Commercial

Why We Are Unique:

- ⚙️ Latest international technology.
- ⚙️ Machines from Germany and USA
- ⚙️ Fully automated process
- ⚙️ End to end in house production, no outsourcing
- ⚙️ Own mines (Khandbandh)
- ⚙️ Production from 3 plants "Rugudi, Anra, Angul"
- ⚙️ Superior quality raw material
- ⚙️ In-depth testing and quality
- ⚙️ Wide range of products
- ⚙️ Be-spoke products available on order

APPROVED BY :

Super Grip Technology

Advantages of SM TITAN TMT

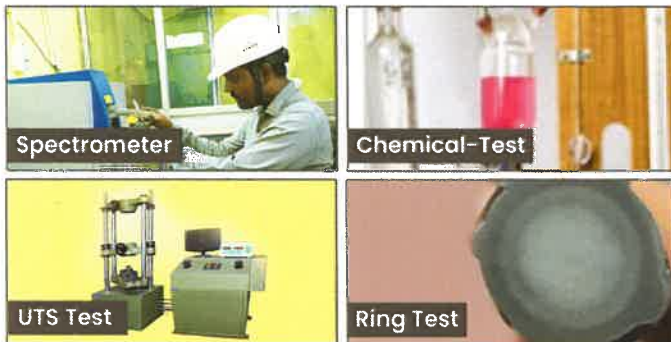

- ✓ Super Grip German technology for utmost bonding with concrete
- ✓ Made using best quality raw material
- ✓ Advance earthquake resistant due to foremost in-class elongation
- ✓ Higher tensile strength makes it ideal for heavy construction
- ✓ Save on overall steel consumption due to Extra strength and load bearing capacity

Chemical Specification of SM TITAN TMT

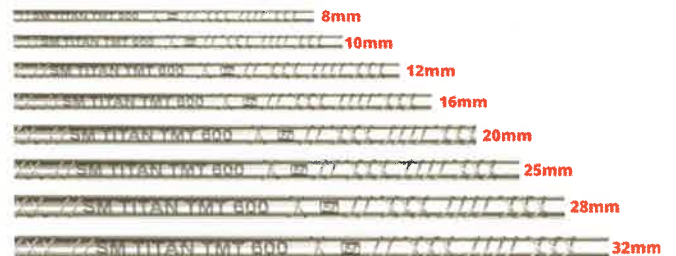

Technical Advantages	SM TITAN TMT	Fe-500D (IS-1786 : 2008)	Composition
More elasticity	0.12-0.30	0.30	Carbon%
Protect from rusting	0.055 Max	0.06 Max	Sulphur%
Protect spalling	0.055 Max	Metallic Iron	Phosphorus%
	0.55 Max	0.5 to 1.2 Max	S+P % Max

Advance Testing and Quality Control Process

Range of SM TITAN TMT

About Company

Sree Metaliks Limited (SML) was incorporated in the year 1990. SML has an integrated setup of mining and two manufacturing units in Keonjhar, Odisha. SML is built on a strong foundation of a dedicated team of experienced professionals from diverse fields. Their cumulative knowledge and experience blended with professionalism at every stage of operation is turning the management's vision into reality.

Vision

Our vision is to expand and improve our manufacturing capability with innovative ideas to become a major player in the Iron and Steel Industry. We aim to position the organisation as a dependable partner to peripheral industries with our comprehensive product mix.

Corporate Social Responsibility

Mission

"Our mission is to produce and provide the best quality products right from mines to end customer at best price to build trust and create value for both our customers and stakeholders.

We are committed to provide safe and healthy working environment to our employees."
